Dear Sir:

I am unable to give the name of a single colored person who resides and owns property in Alaska. A few have been here as servants and years ago I also used to mine on the Shelikine River and work as a blacksmith at Ft. Wrangell. I have tried to interest some of the porters on the cars to get up a party of young people to investigate the opportunities for colored people in Alaska and report to their Society in St. Paul but nothing has been done. There is no hostile feeling here and the climate and chances for getting on well are favorable. I mail you some reports.

Sir:-

I beg to acknowledge the receipt of yours of December 25th informing me of the death of Joe Koo-tuk-teek.

I think I shall let the matter of appointing his successor lie in abeyance for a while for it seems to me that it is perfectly useless to have a policeman unless there is a commissioner to back him up. The salary is so small that it is rather a disgrace for an able bodied Indian who is fit for a policeman to take it. The great danger I think is that a skookum young fellow would be very apt to turn to the horticultural act, namely, grafting. If you have a fellow who can live on the interest of his money and poses for honor, you might name him.

Yours respectfully,

Yours of Nov. 6, has been on my desk for some time but I have been out of town on a western trip as far as Seward. I am sorry that I can not give you such definite information as you desire. The copper industry of Alaska is bound to come to the front very rapidly from this time. The two smelters upon Prince of Wales Island at Copper Mountain and Hadley will soon be in operation. The mines at Elk-snar and Litorone in Prince William Sound make large shipments of ore to the smelters at Tacoma. Other mines in their neighborhood will soon be on the shipping list. The cheapness of water transportation adds greatly to the value of these properties. Railroad construction across Alaska has begun. When the section which

The copy of your letter to Secretary Ryan came in one book. If I am permitted to go East this winter I shall take up the matter of preserving Kasaan Village and shall try to have proper provisions made for that purpose. If I go I shall try to have a talk with the native people first and learn what they think and like to have done. All the totems which we had at Portland are to be returned here to Sitka. I shall have them repaired and painted by the natives and erected in the Government Park near Indian River point. There is a native town two miles away which is in the same district. I urged the school board to make an effort to get them a school and make some requisition for the amount to pay the salary of a teacher. They probably will be so. The natives informed me that they have a building for a school and another for a teacher and that they have about thirty children of school age. W. G. Busby, J. B. Menack, and A. My dear Sir:

I was not at home when yours of the 4th inst. arrived. I was on my way to Seeward. The Sitka natives know well that I am down on their old custom of demands for everything. I have been trying for years to teach them our laws and to get them to abide by them. You were right in asking him to produce his letter from me. I try to be careful about giving them a letter on any subject for some of them are cunning as foxes. I do not know that native by the name which you give but shall try to identify him and if I do he will not be apt to renew his demand saying that I am his backer. The Sitkas are making real progress now. The real leaders last winter publically promised to give up the f^ullat^u and I believe that they meant it.

They dress better and live better. The children are healthier and stronger. They are getting furniture and making comfortable homes. In fact there is a general uplift. But it is very hard for them to submit to our laws in regard to property when their old customs are so strongly in favor of the clan relatives of the deceased. The large communal houses cause much trouble. It is preferable to get each family in a single house. The families in the cottages near the Mission are doing well and their conduct abundantly justifies that system. They should be married early and put to work and if they have children so much the better. We were sorry to hear of your great loss by fire last summer. You have suffered greatly in this way. I hope that your copper interests may put you entirely at your ease for the rest of your days. We wish you and yours a Happy New Year.

Sir:-

I beg to acknowledge the receipt of yours of December 5 from Cleveland, Ohio enclosing copy of your petition with signatures.

Dr. J. H. Romig had written to me in anticipation of such a document, and knowing well the necessity of such an institution as you are demanding, I anticipated the matter and gave it favorable consideration in my annual report which is no doubt printed by this time.

I suggested that the hospital be put under the direction of the U. S. Marine Hospital service. If the idea meets with the approval of your associations you should lose no time in having a representative in Washington to confer with Surgeon General Wyman to obtain his approval and cooperation. A bill will need to be drawn up which will obtain his approval and the approval of the chief of his Department. In fact there is a lot of work to be done and it needs one efficient man to keep after it step by step. It is a fearful place for procrastination. On this subject I wish to bring to your attention and to bring it to the attention of the Association

I have felt for several years that the cannerymen of Bristol Bay and other places on the southern coast of Alaska - but especially the former - have not been afforded sufficient protection for their property and the lives of those who are engaged in the business.

You have millions of dollars worth at stake in buildings, machinery and vessels yet if some leader in violence should take it into their heads to organize there has not been and is not any adequate force nearby to protect you. It is unfair to ask superintendents to go for hundreds of miles to seek protection at the hands of the court in the face of violence. My idea has been and still is that the government should have a vessel equal to one of our best revenue cutters under the direction of the court and in the custody of the marshal. The master of the vessel and under him should be sworn in as U. S. Deputy Marshals. They should have the best kind of small arms and plenty of ammunition and also a Gatling-gun. This vessel should be made to cruise during the fishing season and a good part of the time in Bristol Bay and to the other canneries.

It is to be hoped that a shot would never need to be fired but certainly would be a consolation to superintendents to know that if they needed help they could get it. The very knowledge that a craft was there and ready for action would be a great inducement to those inclined to evil.

It is a matter that impresses your people and I do to safeguard your property.

Sir:-

I am advising five young native men to go to Seward for work on the railroad. They are strong and apt, and I believe that you will find them very satisfactory workers.

Their names are Gus Sheakley, John Morrison, Benson Skultka, Charlie Willis and Tom. Three of these boys have been in the mission, two of them under the carpenter's instruction and I think are rather handy with tools.

John Morrison informs me that he has been employed in running machinery at the mission and therefore he is probably fitted to be shelper where you need that kind of service. They are all pretty skilful on the water handling boats etc.

I hope that they may get along well and that yourself and Mr. Cameron will take a friendly interest in them. If they are satisfactory no doubt you can get a great many more by March or early in the summer after the fur seal season is over. The younger men would probably prefer to work on the railroad than at

the countries after they learn something about it.

I may say that my experience in working natives is that a foreman who will curse them and be continually growling will not be able to do much with them. I think these natives will respond to just treatment as well as any other class of people.

I have given five young native men a letter to you. They were expecting to take the Santa Clara for Seward, but on her arrival here the purser informed them it was impossible to give them passage on account of the crowded condition of the vessel.

I offered to guarantee their passage for their seems to be an understanding with your company and the ship's officers about taking laborers from these towns to you. I wish you would have Mr. Cameron your engineer of construction inform me what your rules are as I see you advertise extensively in the Alaska papers.

I was anxious for these five to get off to work so that you might have an opportunity to judge of them and they might have an opportunity to tell their friends how they like it. I am willing to do what I can in this matter for the sake of the natives and the sake of the road. If these same young men are ready and willing to try the next steamer I shall try to send them.

Sir:-

Yours of December 10th arrived here January 10th. I realize that this subject is a very important one to you, and it should be a very important one to us all on the theory that where a man can make two blades of grass to grow where there was only one or none he is a benefactor to the race. But the United States Government is slow to recognize the benevolent results of the efforts of such men as Luther Burbank or C. H. Barkdull.

Under the land laws for Alaska you are allowed to take up three hundred twenty acres for a homestead. Laws protect you in your possessory rights covering this amount of land. You can maintain an action against anybody who trespasses and molests your property, and you would be justified in making complaint and causing the arrest of any person causing you damage.

You might also get additional land by the use of scrip known as soldiers' additional homestead rights, but of course that makes it much more expensive to cover an extensive tract of land.

Suppose your claims do not cover all the land on the island where your foxes roam, another man will have a right to come and settle upon that unclaimed land, and if he is mean enough to kill your foxes which go over on his claim I am not able to point out any method of redress for you. Right here there are nice distinctions to be made which I think can only be determined by an actual case in court.

Your close neighbor would have no right to kill your horses, your cows, or your sheep if they strayed over upon his claim, now whether you can protect a blue fox as you can a horse, cow, sheep, or goat, I think remains to be determined.

Some years ago the Treasury Department undertook to lease some islands for fox raising but there was no authority to do so as was determined when the matter was called into question and investigated.

Congress, of course, could give immediate relief by passing a measure allowing extra privileges and protection for those who have started in the fox raising industry. My advice would be to write to the Hon. John F. Lacey, Chairman of the Public Lands Committee of the House of Representatives, and to the Honorable Ethan Allen Hitchcock, Secretary of the Interior. The latter will probably refer your letter back to the governor's office for consideration and report and he may also ask the officers of the land office what they have to say.

This is about as direct an answer as I can give you at this

Sir:-

In response to yours of December 28th I enclose the attached certificate.

I knew it to be a fact that T. M. Reed was commissioner at Nome but I telegraphed to Judge Moore at Nome and he replied by cable yesterday that T. M. Reed is still Commissioner and ex officio Recorder of the Cape Nome Precinct.

I hope that this answers your purpose.

Yours respectfully,

Sir:-

Enclosed is a picture of James Killington of Enfield, England and perhaps known as Tom Mouldon.

The picture was sent to the Interior Department by the President and then forwarded to me with the request that I make inquiries concerning the said Killington.

I have been unable to trace him but have been informed that a Tom Mouldon an Englishman worked in Dawson as a teamster. It is possible that he may be the man hence I send you the picture that if so you may be able to identify him.

Will you please return the picture with any information as to his present whereabouts that you may be able to learn.

To the

Hon. Commissioner of Indian Affairs,

Washington, D. C.

Sir:-

In reply to yours of November 27 (Accounts) would state that I had hoped to receive the missing voucher 13 from Alexis Richteroff by the steamer which arrived today but owing to the delay of the S. S. Dora which has just been reported on her way from Illiamna Bay it did not arrive.

Mr. Smith who stopped here on returning there in November promised me to attend to the matter and upon receiving you letter I wrote him concerning it.

I expect the voucher by the first steamer from the westward and hope that will be satisfactory.

The "Dora" has been so much delayed that it was feared that she was lost but is now reported as safe.

Yours respectfully,

John S. Brady
Governor of Alaska.

Kodiak, Alaska.

Dear Sir:

I received yours of Dec. 23rd, on the 18th inst. I have just sent a letter to the Secretary urging that he order the matter to be put in shape and that he ask Congress to pay it. The fact is plain that the service was rendered - that it was acceptable to the community - that the Government is in no wise wronged or defrauded if it pays the teachers. The people at Kodiak knew nothing of the provisions of the new law which was approved Jan. 27, 1905 at the time of the transfer of teachers. If you can send me that letter of Dr. Jackson's authorizing the substitution of teachers I should be pleased.

The Honorable

The Secretary of the Interior,
 Washington, D. C.

Sir:-

In accordance with letter of the Department, July 14, 1905 signed by Acting Secretary F. L. Campbell, I wrote to Mr. A. C. Goss at Kodiak as per enclosed copy.

On the 18th instant I received the enclosed communication from Mr. Goss and I herewith return the papers in the case which have already been in the hands of the Department.

In these communications it is made absolutely plain that the service was rendered the government, that it was acceptable to the people, that the government was in no wise defrauded by the change in teachers, It is simply a hitch caused by a change of law at a time when that community knew nothing whatever concerning it. They are cut off from quick communication by hundreds of miles.

Considering these circumstances I believe that there should be no hesitancy in adjusting these claims and asking Congress to pay them, and I hope that you may give the necessary order that it will be done.

Sir:

The enclosed copies of communications in this office will sufficiently explain themselves to you.

Notwithstanding, that the school board say in their letter that their opinion has been sustained by you I desire to place these communications before you and have you give me your opinion of the law.

Mr. Walton feels that his children by right of Section 7 of the school law are entitled to school privileges in the Sitka School District.

They are of mixed blood and they were counted in the enumeration which was made before the organization of the school district and the enumeration was the basis for the requisition of funds upon the Secretary of the Treasury.

I do not deem it a satisfactory answer on the part of the school board to say that they were excluded for reasons sufficient to them.

So far as Mr. Rudolph Walton is concerned I may say that there is hardly a citizen in the town who has more reasons to be treated with respect than he has.

While he is a storekeeper he is an ivory carver and silver engraver and also repairs watches and clocks with suitable tools for the same. The children who are denied the privileges of the school are his stepchildren by his wife, a half blood, whom he recently married.

She is a woman well respected. The children have always been well kept, tidy and clean.

Now these are the facts as fairly and squarely as I can state them to you.

Please let me have your legal opinion as soon as possible.

DEPARTMENT OF THE INTERIOR

Sitka, Alaska, January 27, 1906.

To the

Members of the Sitka District School Board,
Sitka, Alaska.

Madam and Gentlemen:

I am in receipt of a written communication from Mr. Rudolph Walton wherein he informs me that he is in receipt of a letter from Mrs. George Stowell, Clerk of your board, notifying him that his wife's two little daughters, who are of mixed blood, will not be allowed to attend the public school.

He further says that under Act of Jan. 27, 1905 he claims for them the right to attend said school and requests me to inform him by what authority the School Board denies them this privilege.

I believe that these two children were included in the enumeration, which your clerk informed me amounted to one hundred sixteen who intended to attend school in the Sitka School District upon which the requisition for funds was made.

Please inform me upon what grounds you have taken action to serve notice upon Mr. Walton denying these children the privileges of the school.

Yours respectfully,

(Signed) John G. Brady

Governor of Alaska and ex officio
Superintendent of Public Instruction.

Copy.

Sitka, Jan. 29th. 1906.

Hon. John G. Brady,
Governor and Ex Officio Supt.
of Public Instruction.

Dear Sir:-

Your letter to this Board relative to its action in denying the children of Rudolph Walton's wife the right to attend the white school has been received.

In reply we would say that our refusal is based on our interpretation of Sec. 7 of the Act of Jan. 27, 1905, and the same has been sustained by an opinion furnished us by the U. S. Attorney of this division of the U. S. District Court.

This Board has no means of knowing whether these children were included in the number reported to you, as the census was taken before this Board was elected and our report to you was from the official records forwarded to the Clerk of the U. S. District Court by the petitioners for a school district, but in any case it would not alter the fact of the Board being the judge of who shall attend school.

Respectfully yours,

Sitka School Board.

Dear Madam:

I received your registered letter of Dec. 29, and am much surprised by it. About a year ago I was at Skagway with Mrs. Brady. We met your son many times. He was expecting to go to Eagle Alaska and enter the Customs Service. I have not the run of him. I have heard lately that he is in Skagway. I expect to be in Juneau shortly and I shall inquire of Mr. Kinney for whom he worked while Kinney was conducting a paper in Skagway. I can not believe that anything has happened to him or I should have been sure to have heard it. I think well of him and when I learn of his whereabouts I shall lecture him about neglecting his mother. I mail you my last annual report.

My dear Sir:

Yours of March 21st received and enclosed find vouchers for the last two quarters. Vouchers for the second quarter were sent to you some time ago and check No 73800 dated Nov. 8, 1905 and recently vouchers for the last quarter. Some were sent to Coppermount as that was the last place from which your mail was received.

I saw your daughter last Sunday at church and she is looking well.

Yours respectfully,

John B. Brady

To the
Imperial Russian Consul,
San Francisco, Cal.

Sir:-

Your favor of the 13th ultimo received and I have forwarded the enclosure concerning the estate of Charles Wahlstrom to the United States Commissioner at Unga, Alaska.

It is probably owing to the mishap to the steamer Dora which delayed the mails that you have not heard from him concerning the cases which you wrote me of in January.

I have again reminded him of your communications of May 1904 and Feb 1905.

Very respectfully yours,

John G. Brady
Governor of Alaska.

The United States Commissioner,
Unga, Alaska.

Sir:-

Please find enclosed a communication from the Russian Consul at San Francisco, Cal. concerning the estate of Charles Wahlstrom who died in October 1903 at North West Harbor, Alaska.

He also requests me to remind you that he has received no reply to the communications of May 11, 1904 and Feb. 3, 1905 regarding the estates of J. Lindholm and J. W. Mattson.

Concerning these latter cases I wrote you February 21, 1906.

Yours respectfully,

John S. Brady
Governor of Alaska.

Mr. Kazis Krauczunas,
Immigration Inspector,
Ketchikan, Alaska.

Sir:-

The bearer, Mary Bong Sing, has a daughter who is dangerously ill in Victoria, B. C. The child is about nine years of age and has had a surgical operation performed upon her. Telegraphic report to that effect has been received by the mother who wishes to go to her. As she is a Chinese person she is afraid that she may have difficulty in returning and comes to me for a letter to you.

I can testify that she has lived in Sitka for more than ten years. She was the wife of a former Chinese merchant here and her two children were born here. Since his death she has become the wife of Sing Le who operates a laundry at this place.

She owns a house and lot here and is certainly a resident of Sitka. Whatever you can do in kindness toward her and to facilitate her purpose of seeing her child and returning will, I am sure, be appreciated by the residents of this town.

If necessary, I hope you will provide her with letters to other inspectors who will pass upon her going and coming.

Yours respectfully,

John G. Braden
Governor of Alaska.

Sir:-

In replying to statement of Differences of February 9, 1906
 I offer this as a supplemental report.

Vouchers 8, 10, 11, 12 Alexis Richteroff reported Dec. 15,
 1905 as William Richteroff, a mistake being made in the name
 explained to the Commissioner of Indian Affairs August 2, 1905
 and approved August 24, 1905.

Voucher No. 13 undelivered voucher not received owing as
 explained to the Commissioner of Indian Affairs to the mishap to
 the S. S. Dora in the early winter. Check No 73791 canceled April
 20, 1906.

Owing to the distance and mail facilities it is not always
 possible to pay according to section 340 Reg. 1904.

I hope that this is sufficient explanation and that the amount
 expended will be raised.

Yours respectfully,

Governor of Alaska and
 Special Disbursing Agent.

To the Commissioner of Indian Affairs,
Washington, D. C.

Sir:-

In explanation of differences of accounting as by the Auditor's report of February 9, 1906, I offer this as a supplementary report.

The name of Alexis Richteroff was substituted for that of William Richteroff, which was given as the name by mistake, by report furnished your department August 2 and approved August 24.

Voucher No. 13 has not yet been received as I explained heretofore owing I believe to the mishap to the S. S. Dora in the early winter I have received no mail from there. April 28, the check being undelivered it was canceled. Check No. 73791.

Yours respectfully,

Governor of Alaska and

... to attend the parish school, in connection with

... Russian church.

The two girls with H. McGlashan are distant relatives of his wife, they are not afforded an opportunity of attending public school owing to McGlashan's inability to furnish the girls with anything but cast off garments, their treatment at his hands is all that could be desired and expected.

4. The girl at Priest Kedrovsky's house is much better off in every respect than most children living with their own parents and attends the parish school.

In every one of the above cited instances, the people accused of having slaves are of the highest social standing in this community, are well known for their kindness and philanthropical tendencies, that they do not possess any more extensive means than they do, is their own fault and misfortune. A number of the so called "slave girls", that have grown up here, have made the best of wives and mothers.

In conclusion we can make the following deductions.

- a) There are certain children in this and other communities in Alaska that are kept under certain restrictions as to their actions.
- b) That such restrictions are natural considering the social and intellectual status of such children to be met with in any community.
- c) The physique and mental condition of these waifs is a decided improvement on the condition from which they were taken.
- d) That no legal steps could or should be taken except in such cases where inhuman or severe treatment is the least warranting such steps.

Mr. Davis exaggerates grossly, not only on the condition of these children, but also on the condition of natives in general, as mentioned in his letter.

I return herewith the enclosures as directed.

Respectfully,
N. Gray.

Hon. Nathan V. Harlan,
 U. S. District Attorney,
 Valdez, Alaska.

Sir:-

In answer to inquiries made in your letter of April 26th. 1904 and May 25th. 1904, relative to the condition to certain children especially girls that are claimed to be in a state of bondage or slavery. I beg to submit to you the following notes, gathered from reliable sources and supported by my personal observations and knowledge of persons involved:

1. The girl of 8 or 9 years of age with A. Newman was brought here from the village of Umnak, is an orphan, having neither father or mother, lived in extreme poverty and filth, with a distant relative, who barely made an existence for self and immediate family, that the child did not get even the ordinary necessities of life, was very apparent from the condition she was in when brought to Unalaska. At Newman's the child received kind treatment, wholesome food, clothing and was taught to do light house work, such as is suitable for a child of her age and physique, here she was removed from immorality, generally found among the Aleut, who perform all functions of nature, without any regard for surroundings, her spiritual was also looked after, she was not allowed to attend the public school the reason given was that Newman could not afford to clothe the child in anything but cast off clothing, and such, while food enough to be worn at home, would perhaps expose her to ridicule from schoolmates, which would tend to have a depressing effect on her nature.
2. Girl of 14 with Ivan Olgin belongs to the village of Burke, where she has a father and step-mother and who have voluntarily given this child to Olgin to be reared, being too poor themselves to provide for her. From personal observations I can say that this girl is treated more like a companion than a servant and while she does not attend the public school, is

I think that Mr. Davis has exaggerated the conditions of Unalaska, as regards to these children, whom he says, in a very bold and off handed way, are held as slaves.

I shall state further that there is no more slavery here than there is in any town in south-eastern Alaska, and for Mr. Davis to make such an accusation is more than I can figure out, unless for such reasons as I shall state, that the people of Unalaska were not on very friendly terms with Mr. Davis, the reason being that he was paying more attention to their business than his own.

I shall not dwell any longer on this subject, but shall enclose a copy of a report, written by Mr. Grey, U.S. Commissioner of Unalaska, (which is on the same subject) to the U.S. District Attorney at Valdez, Alaska. Mr. Grey has lived in this vicinity for the last 28 years and is in a position to know the conditions of the surrounding country.

Respectfully,

Deputy Collector of Customs.

Unalaska, Alaska, Oct., 14th, 1855

Hon. John W. Brady,

Governor of Alaska,

Sitka, Alaska.

Sir:-

Acting under your instructions to investigate the accusations made by Mr. Davis, that certain native girls were held as slaves in the town of Unalaska, Alaska.

I herewith beg to submit the following report.

Since my arrival at this place I have visited quite a number of the houses, and especially those that have children which Mr. Davis had reference to. Being able to talk to these people in the Russian language, I had no trouble in explaining to them my mission. The existing circumstances are the same in all of the houses, where the children are, as mentioned above, so I shall not dwell on them separately but, as a whole. These children are given to these people by their parents and relatives, when they are quite young, and are not taken into captivity and held as slaves, but the children are given to these people, (whom in some cases are near relatives) for adoption, no papers are given to that effect, as I don't think any are necessary in this part of the world. These children are clothed, feed and cared for as though one of their own, and in some cases where there are no other but them, they are thought and made as much of as though one of their own. Some of these children are sent to school, and when asked why is it that the others are not sent, they would tell me that not having means to provide them with clothes good enough to be presentable before the other children. These children are the same as some in south-eastern Alaska, that we all know of, and are not held as slaves, but are given by their parents for adoption. The only difference is, that the people in south-eastern Alaska have better means of providing them with clothing and the advantages of a better education.
