O-6

July 8th, 1938.

My dear Mr. von Lehmann:

I am in receipt of your letter dated the 30th instant in connection to your hunting license which was the subject of correspondence between us in Seattle last month, and enclosing your certified check in the sum of fifty dollars, on the legal fee therefore. I am unfortunately, to find that, upon examining the Alaska game law closely, as I had not an opportunity to do while in Seattle, the fee for a hunting license is invariably one hundred dollars, unless the person to whom it is issued be "a citizen of the United States". My discussion with you which ended in my assuring you that I could issue you a hunting license as a resident of the United States was based on the assumption that the game law used the word "resident" and not "citizen". You will readily appreciate that the difference in meaning of these terms is vital in this instance, and that I have no recourse but to follow the law. Unfortunately it is not possible either, to refund any interpretation courtesy in these matters, although I would be glad to do one. I am assuming, of course, that while on I told you it would be possible to regard you as a resident of the United States you were, indeed, a citizen of Germany. Accordingly I am returning your certified check, since I am not certain whether you wish to take out a hunting license under the circumstances.

I enclose a copy of the game list, marked for your information.
With assurances of my high regard, I am

Respectfully yours,

My dear Congressman:

I have appointed Mr. F. S. Irons, in whose behalf you wrote me under date of November 20, 1913, as a Game Warden under the Alaska Game Law. I regret that, although I had a high opinion of Mr. Irons -- which opinion was enhanced by your endorsement of him -- it was not possible to place him in the government service prior to July first of this year. He seemed very glad to have this appointment. The compensation is one hundred and fifty dollars per month, with expenses of travel.

With kind regard, I am

Faithfully yours,

Governor.

Sir:

Acknowledging receipt of your letter of the 17th instant, re-
questing me to the procedure necessary to enable you to ship out of
Alaska a pair of bears hunts taken by yourself "close to the bill-
boy mountains", I beg to advise that under the provisions of section
8 of the Alaska Game Law you will be required to obtain a shipping
license, the legal fee for which is forty dollars, which will author-
ize the shipment of hunts or trophies of one moose, if killed north
of latitude sixty-five degrees, and certain other trophies mentioned
in the section referred to. A copy of the law is herewith enclosed
for your information and guidance. You will be required to make ap-
plication before the custom officer at the point of shipment, and
in making application to this office for the license you should state
through what port the trophy will pass (whether Seattle, Portland or
San Francisco) when shipped, and the fee should be remitted in
the form of a postoffice money order made payable to the Treasurer of
Alaska. A copy of a circular of instructions and information for the
guide is also enclosed

Respectfully yours,

Secretary to the Governor

My dear Judge Myers:

I write to acknowledge receipt of your letter of the 7th ultimo, amplifying your prior telegram in regard to the appointment of Christian L. Larson as Game Warden. I had already appointed Mr. Larson, and your telegram had an influence in his favor. Thank you very much for your assistance in this matter.

My dear Mr. Glenn:

I have your letter of the 28th ultimo recommending Mr. Albert Cunningham for appointment as game warden. I had already made the appointment to this office before I received your letter. I value your opinion highly, but in the case of this appointment there seemed to be two or three applicants, all of whom possessed qualities which recommended them to my consideration. The choice, however, fell in favor of Mr. Lloyd.

Faithfully yours,

Governor.

Hon. John A. Glenn,
Care Holloman & Glenn,
Montgomery, Alabama.

Sir:

I telegraphed you today as follows:

"Further instructions referred to in telegram of July twentyfour continued in letter this date. Familiarize yourself with gold law and entertain duties your office according your judgment."

I wished soon this after your appointment which giving you full instructions in regard to your duties as soon thereafter as the hope that it would be found possible for you conveniently on his way from the Yukon river, to visit you at Tanana for conference. Mr. Irwin has recently visited this office, where we had several conferences in regard to the administration of the gold laws and learned in a thorough manner my policy and purpose in connection with the duties of the several divisions. He left here before your appointment, and when I telegraphed him asking if it would be possible for him to visit you at Tanana, it transpired that he had reached a point on the river below Tanana, but it was not feasible for him to turn back.

I regret that on account of the other duties of my office it will probably be impossible for me to visit Fairbanks this summer, when I should have an opportunity to talk with you about the administration of the gold laws. I shall have to fulfill the purpose of such a conference, so far as possible, by correspondence and by asking you to consult with the District Attorney, the United States Marshal, and other officials there in Fairbanks who have had some experience

with the game protection note. Soon after your appointment a supply of copies of the game law and the various circulars of instruction and information were sent to you at Tuleharbor. You will find on I have found and no others have found that the game protection act is a somewhat important measure, to which we have found it impossible to secure absolute conformity. There are several serious obligations and important provisions in the act which have been the subject of rulings from this office. I think the meaning of the various provisions in the light of the circulars referred to will be clear to you. It is hoped that you correspond freely with this office, submitting any questions which you may desire to have answered.

One of the most troublesome matters of administration in the protection is respect to summer colleges. This has been especially evident in Maryland and Virginia. I wish you to have clearly what my policy is regarding the exemptions of the game law. It is provided that citizens and employees may kill game freely in season or out of season when in camp or field. I wish to have this exemption construed very strictly, but it is not expected that any person may kill freely at any time simply by calling himself a citizen, when in reality his occupation may not be that of a citizen at all. Liberality in construing this provision of the law will also depend very largely upon the locality. In general it is desired to be as liberal as possible in localities where it is impossible or difficult to obtain a supply of fresh meat other than game meat, and to be less liberal in localities where there is regularly a supply of beef or mutton. Obviously

no special consideration should be shown in a community like Baltimore, where there are two such Companies with a supply of blood much always on hand. On the other hand, in a remote district, such as the Tony Hills country, for instance, where should be allowed to kill some few cows with a good deal of freedom. Baltimore hospitals should not be permitted to kill freely for the purpose of supplying their patients. I have reason to believe that one of the most serious abuses of the law is committed by some of the Baltimore hospitals. As pointed out as desired and will be my policy and to make the game prosecutions not oppressive, but to recognize the principle that the game is for the use of the people within reasonable limits, those limits being governed by the necessity of conserving the supply of game birds for the use of the people.

Mr. Marshall has given you some information and instructions in regard to the manner of rendering your accounts. Your special attention is called to the fact that the practice of your predecessors in rendering a bill for office expenses in bulk cannot be continued. You should in the course of the year perform considerable travel, for in my opinion an efficient administration of the game law cannot be accomplished without a good deal of moving about on the part of the game wardens.

I think you are aware of the fact that deputy marshals and certain other Federal officers are charged with certain duties in connection with the game law, and I have no doubt that you will find it

profitable to confer freely with these officers and co-operate with them whenever opportunity is offerable

It is desired that you regard this letter as entirely confidential in character, none of the contents thereof to be made to any person. If I were giving public expression to any of the views contained herein I should desire to frame them in different language, probably, and to select the time, place and circumstances of giving them publicity.

Respectfully yours,

Sirs:

Acknowledging receipt of your letter of July 28, 1938, advising production among other has five million, two hundred a shipping license for one boom hoist chain, application for which was enclosed in your letter. I beg to confirm herewith formal shipping license No. 4, of this date, issued to you for the shipment of the chain in question.

I am advising the collector of customs at Seattle that the shipment will arrive at that port consigned to you at Seattle. The Alaska Game Law requires this office to inform the collector of customs at the port of entry in the States as to the name of the consignee of such shipments and their destination. If you intend shipping the chain to some person other than yourself or company or elsewhere please advise this office at once, otherwise the shipment may be held up in Seattle to await a correspondence from this office as to the consignee and destination.

Sirs:

Acknowledging receipt of your letter of the 31st ultimo advising that you have taken order of birds, moose, caribou and sheep, which you wish to take in your hunt in Controller Bay, and asking what steps are necessary to be taken by you to make the shipments, I beg to advise that you will require a shipping license, the legal fee for which is forty dollars, which will permit you to ship the following game trophies.

"Two moose, if killed south of latitude sixty-two degrees, four deer, two caribou, two sheep, two goats, and two bears, but no more of any one kind".

I enclose for your information a circular issued by this office under date of June 30, 1911, giving information to the public in reference to the game law, and particularly as to hunting and shipping licenses. Under the heading of "Shipping License" you will find the requirements, in brief, as to shipping licenses. Your application for the license should be accompanied by a postoffice money order for the legal fee, payable to the Governor of Alaska, and your application should state whether the moose was killed north or south of latitude 62 degrees, and should also advise through what port in the states the shipment

will guide, and to show it will be consigned, and the destination. You will notice this, that you are required to make an affidavit to be filed with the customs officer at the point of shipment, to the effect that you have not violated any of the provisions of the game laws, and that the trophy has not been bought or sold, that you are the owner of the trophy or trophies, and that they are not being shipped for sale. Unless you are able to make this affidavit upon the necessary blanks, it is of no use of course to apply for a license, as it could not be used without the affidavit.

Respectfully yours,

Secretary to the Commission

Dear

This letter will be presented to you by Mr. Charles Scott of Hattiesburg. He expects to share hunting trips with a party of his friends. I have already communicated with you, asking that you do everything that is possible, consistent with good sportsmanship, to facilitate his experiences. I am writing this letter for him in order that Mr. Scott may have it in his personal possession to present to you and for the further purpose of reminding you of the pleasant time we have spent

August 7, 1913.

Sir:

I write to acknowledge receipt of your letter of the 30th ultimo, in further reference to the permits for your collecting trip on the Upper Amazon. The slight lack of understanding in regard to the terms required by you for this trip was caused by the fact that the Department of Agriculture, through an oversight, had not advised this office of the regulations in respect to these permits for taking moose and caribou in the Kenai Peninsular.

The matter is now well understood, and I shall be pleased with sufficient clearness in the letters of Mr. E. W. Nelson, Assistant Chief, Biological Survey, to Professor H. F. Osborn and Mr. Thomas S. Roberts.

Referring to the fourth paragraph of your letter, you are advised that there is no authority under the law to issue permits for the taking of female or yearling moose on the Kenai Peninsula. It is probable that the Department of Agriculture has the power to issue the permit for taking female and yearling moose for scientific purposes elsewhere than in the Kenai Peninsula, where the Department has thought this power for the time being by special regulations to the contrary, of which this office has not been advised.

The hunting license which has already been issued in response to your application, covers the shipment of two moose, provided such moose are killed NORTH of latitude 60 degrees, but if killed south

Sirs,

In reference to your letter of the 6th instant, relative to reported violations of the game laws in the Chirikof Islands, Governor Clark suggests as he may not be able not deem it advisable at this time to authorize you to make the investigation suggested in your letter, but that should it is found the expense would be more than the present funds for the expenditure of the appropriation will warrant. As you may agree, no doubt it is the Governor's desire to secure the most-ly as possible the entire Territory, and to do this requires careful planning of expenditure, particularly in the matter of expense accounts. The high charge for lumber this year only expense accounts includes a charge of $50 for board bill) he is such that he may rightly exhaust the amount of funds available for expense accounts, and the Governor is very desirous that your expense accounts shall not consistently under the limited dollars per month as the average.

Sir:

Acknowledging receipt of your letter of the 5th instant, I enclose herewith copy of game law circular, with copies of circular letters issued by this office under date of June 30, 1911, in regard to licenses, guides, etc.

You have evidently been misinformed as to the custom officers allowing but two deer to be shipped, as the law provides for the shipment of four deers.

A fee of fifty dollars is required for the hunting license of a non-resident of Alaska who is a citizen of the United States, while an alien is required to pay a fee of one hundred dollars. The hunting license permits the killing and shipment of two moose, provided they are killed north of latitude 62 degrees. If killed south of that latitude a special moose shipping license is required, the fee for which is one hundred and fifty dollars, and such moose is limited to two of these licenses. I note that you contemplate going into the Mentasta River country. This is in the Yukon Territory, and is, of course, under the Canadian government and any trophies obtained there would have to be shipped in accordance with the laws of that Territory. I think if you address a letter to Honorable Arthur Wilson, Administrator of the Yukon Territory, at Dawson, Y. T., you can obtain the

necessary information as to the hunting and shipping laws and regulations of that Territory.

Respectfully yours,

Secretary to the Governor.

Sir:

I enclose a supply of inserts for the game law circulars, containing the act of March 4, 1911, providing an open season for game birds north of 62. I think the circulars which were sent you had this insert pasted in them, but the game law circulars which Mr. Garner had, and which I assume were turned over to you by him, did not have this act in them. If he turned his supply over to you kindly complete them by pasting this insert in them; if he did not turn them over, I would suggest that you call on him and get them, as our supply is rapidly being disposed of. Please let me know what you do in the matter.

I think Mr. Garner also had some Travel Voucher blanks for use in making up his expense accounts. He should turn these over to you, with anything else that properly belongs to the office.

Sir:

Referring to your cablegram of the 16th instant advising that the guides at Seward have filed a protest against the appointment of new guides, and to your telegram of same date recommending the appointment of Towle as a guide for the Jeffries party — the latter appointment being requested by the Jeffries brothers in message of same date. The request for the appointment of Towle was refused by me, in the absence of Governor Clark, as I felt that such an appointment would be unfair to the guides already licensed and who are devoting their time to guide work. Your message recommending Towle was not received until after I had filed my answer to the message from the Jeffries brothers, but I did not deem it consistent to consider the appointment of Towle under any circumstances, simply as a matter of justice to the regular guides.

The protest referred to in your last message is, I take it, intended to apply to the recent appointments of Wik, Simms, Nees, Wilson and Bull Berg. Wik and Simms were appointed on July 14 last, the former on the recommendation of W. H. Lawson and the latter on your recommendation. Nees, Wilson and Berg were appointed on August 14, on the recommendation of Mr. F. P. Wise, Jane Warden et Remi. Wilson who formerly a licensed guide.

while Ross and E. Berg are, I believe, new men.

It is the policy of this office to protect the licensed guides, and to keep the number within reasonable limits. Some time ago a party who contemplated a hunting trip to Kenai Peninsula requested that a man who had acted as guide for him in other parts of the United States be appointed as guide for his trip to the Kenai Peninsula, and the request was refused by the Governor, who stated that such an appointment would be unfair to the men who have paid their fees and are devoting their time to guiding hunting parties and assisting in the protection of the game animals on Kenai.

Governor Clark is out of town at present, but I am sure that he will fully concur in what I have written, and I shall be glad if you will kindly explain the contents of this letter to your guides.

Respectfully yours,

Secretary to the Governor.

I note that the name of George Dreibelbis does not appear on your list nor on one sent by Mr. Vinn, although I find his name on our records here, as having been appointed on August 6, 1910. You also refer to having badges Nos. 15 and 19 on hand, which you say "no doubt belong to E. N. Chamberlain and Andrew Simmons." I do not find the name of E. N. Chamberlain on our list of guides. Will you please advise me as to Dreibelbis and Chamberlains.

I also note a little difference in the spelling of the names of two of your guides. You give the name of E. E. Neville, while on our records it is Revell, and you give the name of Chas. Zimmerlier, while our records show it as Zimmerler. Will you kindly advise which is the correct spelling of these two names.

Sir:

In further reference to your inquiry of July 17 last, and my reply of July 22, in respect to the hunting licenses asked for in your letter of May 2, 1911. As advised in my letter of July 22, I wrote to the Postmaster at Kodiak in reference to the package of mail addressed to you, which included the licenses for yourself and Mr. Hurst and the various documents asked for in your letter of May 2. My letter was received by the Kodiak Postmaster on August 2, and has been returned to me with notation made thereon by him to the effect that the mail in question was "Returned to sender Aug. 1/11". In the same mail with the return of my letter by the Kodiak Postmaster, I also received the package containing the licenses, etc., marked "Return to Writer", "Not called for, left Kodiak May or March". I am forwarding the package to you just as it was returned to this office, and you will note that it was addressed to you and John Hurt (which was the way Mr. Hurst's name was sent by me in your letter of May 2,) and that it was addressed to Kodiak, as requested by you. I am unable to understand why you did not receive it. Unfortunately you do not say when you left Kodiak, and the Postmaster does not advise when the package reached that office -- nor does it bear the receiving stamp of the Kodiak office, for some reason -- but it must have reached there the latter part of May or early part

of June. It bears the Jamaica postmark of date May 14, the day after the licenses were issued by this office, but probably did not leave here until about May 16, as there was no boat going to the Westward from Jamaica after May 8 — four days prior to the receipt of your letter of May 2 — until May 16 when the Bertha sailed to the westward. This delay in the mail, of course, was no fault of this office.

I regret that there should have been any failure on your part to receive the licenses and other documents sent you, but it was unavoidable so far as this office is concerned, at least.

You ask if it is possible to obtain a refund of the license fees. As we are required immediately upon receipt of fees of this nature, to deposit them in the U. S. depository here — the First National Bank — to the credit of the Treasurer of the United States, at Washington, D. C., the money passes at once out of our control and a refund is impossible. It would require a special act of congress to secure a refund of the fees. You understand, of course, that the licenses are good until the end of the calendar year, but are not transferable.

Respectfully yours,

(Enclosures) Secretary to the Governor.

PERSONAL. July 1, 1911.

My dear Mr. Secretary:

I am pleased to receive your letter of the 19th instant, enclosing copies of correspondence between Mr. E. H. Woods, of Rosedale, Mississippi, former Secretary of War Dickinson, and yourself in regard to the expected hunting trip of Mr. Charles Scott in this Territory. It will be a pleasure, both for your sake and Judge Dickinson's, to do everything possible to facilitate Mr. Scott's trip. I shall immediately advise our best game warden at Seward that Mr. Scott expects to visit that part of the country, and ask him to see that a good guide is provided and that everything within his power be done to further the arrangements of Mr. Scott for his trip into the game regions.

With high regard, I am,

Faithfully yours,

Honorable Walter L. Fisher,
Department of the Interior,
Washington, D. C.

July 3, 1911.

My dear Mr. Secretary:

It occurs to me that a little further reply to your letter about the expected hunting trip of Mr. Charles Scott is necessary. I notice, after more careful reading of Mr. E. M. Woods' letter to Secretary Dickinson, that Mr. Scott desires to obtain trophies for a scientific collection which is expected to be open to public view. In your letter to Secretary Dickinson you remark that you infer "Mr. Scott does not desire to bring out live game" and that you have therefore written to the Governor of Alaska, who is authorized to issue permits to hunt game in the Territory.

It is true that this office issues hunting licenses to sportsmen, but in case a hunter is trying to get specimens for a scientific collection of a public character, the proper office for him to apply to for a permit, both for hunting and shipping, is that of the Secretary of Agriculture. I add this to my former letter, thinking that possibly you did not fully understand

the purport of Mr. Woods' letter. I may, however, be mistaken in this.

Faithfully yours,

Governor.

TERRITORY OF ALASKA

GOVERNOR'S OFFICE

JUNEAU

August 21, 1911.

Sirs:

For your information and guidance I quote from a letter of July 3, 1911, written by the Governor to Captain Malcolm McNeill, with respect to the matter of obtaining special moose shipping licenses for moose killed south of latitude 62 degrees.

"It is not desired to require you to take out special moose shipping licenses and pay for the same, in view of the possibility that you may have no use for them. For your accommodation, therefore, I will arrange with Game Warden Shaw at Seward, and Game Warden Vian at Kenai, that upon receipt of telegraphic advise from the game warden that a special moose shipping license is wanted, the license (or licenses, if two are needed) may be issued by this office and forwarded to the Collector of Customs at Seattle to await the arrival of your shipment. As this plan is purely for your accommodation and is extra-official, the cost of telegraphing cannot be defrayed by the government. The fee for the license or licenses can be given to the game warden, in the form of a post office money order or orders, payable to the "Governor of Alaska", at Juneau, Alaska."

The arrangement suggested for the accommodation of Captain McNeill, as outlined in the above quoted portion of the letter to him, will also apply to any other hunters holding licenses issued by this office, or residents of Alaska, who have killed moose south of latitude 62 degrees and wish to arrange through you for the shipping licenses therefor. It is being explained to all hunters now applying for hunting licenses, that in the event of their killing a moose south of 62 degrees, they may also be accommodated in the matter of obtaining the special moose shipping license, in the same way as explained to Captain McNeill.

You will be particular, when making arrangements for these licenses, to see that the party for whom the license is intended pays for the message sent to this office by you, and for the reply message advising the issuance of the license by this office. Also that the party deposits with you the necessary fee in the form of a post-office money order made payable to the Governor of Alaska. Should any of the parties wish to ship their trophies through Portland or San Francisco instead of Seattle, you should so state in your message; otherwise it will be assumed by this office that they will go through the port of Seattle, and the license will be issued accordingly. Your message should, I think, state the full name (or surname with all initials) of the party, the number of licenses desired (whether one or

2577

two), the port through which the trophy or trophies will pass, and unless they will be consigned to the party by whom they are taken and being shipped, the name of the consignee should be given; and the point of destination of the shipment should be stated, as also the fact that the license fee(or fees) has been deposited with you. I would think something on the following order would suffice:

" Clark, Governor,
Juneau.
Malcolm McNeill has deposited fee one special moose license, consigned self Scotland through Seattle. Answer paid."

This message to be signed by the warden, to whom the reply message will be directed, advising the issuance of the license, giving number of same, etc. This message can then be turned over to the party to accompany the shipment to Seattle, and the license will be forwarded in first mail to the Collector of Customs at Seattle, or to Portland or San Francisco, as the case may be.

As this arrangement is entirely for the accommodation of the hunters, all requirements must be met by them in order to take advantage of it, and the game wardens must in no case go outside of the limits of the arrangement as outlined by the Governor in his letter to Captain McNeill, quoted from as above.

Respectfully yours,

Secretary to the Governor.

Sir:

Acknowledging receipt of your letter of July 31 last, in reference to your application sent to this office in the month of March last, enclosing five dollars, asking for a permit to ship one set of Caribou horns to be taken outside and to which communication you say that you have received no reply.

A careful search of the records has shown us this office fails to disclose any record of your letter of March last, and inasmuch as this office would unhesitatingly have had to write to you in receipt of that letter, to which that you had not received the right amount (the fee for shipping a caribou head being two dollars), it is very evident that the letter has not reached this office. Particular care is given to all letters relative to license, especially as many of them contain money which must be accounted for both to the sender and to the U.S. Treasury. Should the letter come to hand at some later date you will be promptly advised. Meantime, if you wish to ship the caribou head you will have to remit two dollars in the form of a postoffice order, as provided in the enclosed circulars with other information solicited therein.

In your report of the successful prosecution of Fletcher, at Kodiak, for sale of bear skins to officers of the U.S.R.C. Buffalo, you advised the amount of the fine imposed, but did not give the amount of the costs taxed in the case and which Fletcher would have to pay. Will you please obtain this information and advise this office?

Your reports are always interesting and very replete with information, and I have no suggestion to make in regard to them, other than that you will when reporting prosecutions advise both the fine and the costs, so that this office may be able to report, if necessary, the facts in these particulars. You explained, I think, that you had to leave before you could learn the amount of the costs in the Fletcher case.

One of the officers of the Buffalo recently asked for a permit to ship one of the bear skins sold by Fletcher and purchased by the officer. The request was denied, of course.

Did you learn the names of the officers who purchased all the skins? If so, please advise.

Sir:

I enclose herewith letter of August 15, 1911, from H.C.Sheber, Auditor for the Interior Department, advising you that your accounts for the period ended March 31, 1911, under bond of October 1, 1909, has been settled and balanced by Certificate No. 5609 of August 15th.

This letter came to you addressed in my care here, and I opened it and made a copy of the letter for filing with your March 31 accounts.

With regard, I am,

Respectfully yours,

Secretary to the Governor.

(Enclosure)

Mr. William M. Loller,
care Elks Club,
San Francisco, Cal.

August 30, 1921.

Sir:

I write to acknowledge receipt of your letter of the 12th instant enclosing postoffice money order in the sum of ten dollars, and asking for a permit for shipping two brown bear skins. The Alaska Game Law provides for three kinds of licenses -- hunting, general shipping, and special moose shipping. The general license provisions apply to residents of Alaska who wish to ship trophies out of Alaska. Three fees are provided for, each of which permits shipment of certain trophies; $40 is the fee for a license under which 1 moose (killed north of latitude 62°), 4 deer, 2 caribou, 2 sheep, 2 goats and 2 brown bear may be shipped; $10 is the fee for a license permitting the shipment of 1 caribou or 1 sheep; $5 is the fee for a license permitting the shipment of 1 goat, or 1 deer, or 1 brown bear. There is no provision for a license permitting the shipment of two brown bear only; and as the law provides that not more than one "general license" shall be issued to any one person in one year, it is impossible to issue two $5 licenses to the same person. The only way by which you can arrange to ship the two brown bear skins is to pay the $40 fee, which would permit shipment of various other trophies as well, if legally obtained by you.

Otherwise, the best you can do is to obtain a license for the shipment of one bear skin, the fee for which is $5. I return herewith the money order which accompanied your letter.

A copy of the game law is enclosed, together with a circular relative thereto which contains the information in a condensed form. I would suggest that you read section 5 of the law, in particular.

I regret that your request cannot be complied with, but this office has no authority to deviate from the plain provisions of the law.

Respectfully yours,

Secretary to the Governor.

Sir:

Your wire of this date from [redacted], asking for orders, was answered by the Governor, who instructed you to proceed to Fairbanks, confer with Lloyd and arrange a winter program, working from Fairbanks. You were advised, also, in the message, that your salary check for August, and the check covering your July expense account, had been mailed to you at Fairbanks, care of Lloyd, today.

I enclose the [redacted] checks herewith, with other papers. Hope you received your July salary check before leaving Iditarod.

Your July expense account is, I think, O. K. as to form, and I do not think the Auditor will "block back" on it for further information.

Respectfully yours,

Secretary.

Sirs:

Referring to our letter of July 29 last, and your reply of August 15, respecting furnishing us with 50 boss cases similar to sample sent you, but without lettering. I note that you quote a price of 25 cents each, net.

I am requested by the Governor to place with you an order for fifty (50) of these cases, same size and style as sample previously sent you and which is herewith enclosed, the same to be without any lettering on them, at a price of 25 cents net.

Kindly return the enclosed sample when mailing the order. I enclose two return penalty envelopes which you will please use for mailing the cases. If but one is required, kindly return the other. Send bill in duplicate. Also sign the enclosed voucher form at the place indicated, returning it to us with your bill.

Sir:

Your wire of the 31st ultimo asking for vouchers and stationery for remainder of the fiscal year just received, and I have put up four packages of supplies, as follows:

1. Package containing 15 Personal service Vchrs. and a supply of Travel expense vouchers.
2. Package containing supply of letter heads.
3. Package containing supply of large white and large cloth-lined envelopes.
4. Package containing 50 copies of game laws, 50 copies of Circular of June 30, 1911, containing information for the public, and about 20 copies of the circular of June 30 to game wardens.

I do not know what the arrangement is to be for paying the man you take with you; whether he will be appointed and draw a salary in the regular way, or be taken up in your expense accounts. If he is to be paid from this office direct, he should sign some of the personal service vouchers; if not, he need not sign these, of course. You will advise me, of course, what to do with your checks while you are away from your headquarters.

Sir:

During my absence from Juneau on official business the following telegram was received in this office:

"Nome, Alaska, August 28, 1911.
Governor of Alaska, Juneau.
Respectfully request permission take to San Francisco known bear skin bought openly, publicly and in good faith from Fletcher, of Kotlik, with experience carried that place. Wire answer collect.
Lieuts. John E. Pond, U.S.S.Buffalo."

Now when prior to the receipt of this message C. A. Fletcher was convicted in the Commissioner's court at Kotlik, of selling brown bear skins in violation of law. If it be true that the deputy marshal at Kotlik advised any person that they were justified under the law in buying bear skins, I treat the advice was given under a misapprehension of law. The law, as you are no doubt aware, absolutely prohibits the sale of game trophies in Alaska. Although this provision may have been the subject of some misapprehension in the past, there has never been any doubt throughout residents of the Territory nor non-residents like these officers of the cruiser Buffalo, are not permitted to ship from the Territory any game or game trophies which have been bought or sold or are intended for sale.

Respectfully yours,

Governor.

Sir:

I beg to enclose herewith copy of a letter addressed to the Secretary of the Interior and by him forwarded to me for appropriate action, reporting that gasoline boats furnished by white men are being used by natives in fishing for the purpose of hunting walrus. The use of power boats in hunting any of the game animals found in the Alaska Game Law is prohibited, and in the absence of a game warden in Northwestern Alaska I will appreciate it if you will cause an investigation to be made to the end that the truth of Mr. Thompson's report, as contained in the letter referred to, may be determined, and, in case [illegible] found to be true, the guilty persons prosecuted.

Respectfully yours,

Governor.

Sirs:

I write to acknowledge receipt of your letter of the 6th ultimo, in respect to certain horned sheep hides which you shipped by Wells Fargo Express, consigned to your brother at Annapolis, Maryland.

The Customs officers informed me that this shipment, with one other of a similar kind, had been stopped at Seagway, an action I approved for the reason that the Alaska game law makes it illegal to ship trophies of sheep from the territory unless the shipper first obtains a shipping license in accordance with the provisions of section 5 of the game law. I regret that you were advised by any person that free shipment was not illegal, and I have no idea that you had any intention of violating the game law. The provision of the statute, however, is so clear, that there was no recourse but to stop the shipments. Expressly for your accommodation, and in the belief that you acted in good faith, I telegraphed Game Warden Lloyd today as follows:

> "Inform John Aldridge that shipment mountain sheep is illegal without license. Also that in consideration his evident good faith action will be held blotted that the law his transgression as to disposition."

Since the date of my letter, G. A. Stebbins, a merchant of Kodiak, has been found guilty in the U. S. [illegible] court at that place, and a fine imposed for selling brown bear skins to certain officers of the "Buffalo" in violation of law.

I have the honor to request that this office may be advised as to the progress of the inquiry which I have no doubt was instituted by the Navy Department as to the purchase of bear skins by officers of the vessel in question.

Sir:

Referring to the Governor's letter of this date to you, advising, among other things, that the helper you take with you on your winter trip must take the oath of office in duplicate, I beg to advise that it will be necessary to have this man carried on the pay rolls with the game wardens, and for this purpose, to facilitate payment of salary each month, he should sign some voucher blanks and send them to me. Thinking that possibly you may have returned to me the vouchers sent you some time ago, in response to your message, I enclose a further supply of personal service vouchers, which please have him sign and return to me. His expenses for transportation, subsistence, etc., should, I think, be carried in your own accounts. This will no doubt simplify the matter, since you are quite familiar with the requirements and are not likely to send in accounts which will be held up for further information, while a new man might have some trouble.

[illegible]

I write to acknowledge receipt of your letter of the 28th ultimo, which came to this office today, asking for a permit to ship a number of trophies of game animals and birds from Sparta, Alaska, to your address in the states. I have to inform you that the shipment of game trophies from Alaska by non-residents of the territory is prohibited by the game law, except where the persons obtain the trophies themselves, under regular hunting licenses. Residents of the territory are permitted to ship trophies only after obtaining shipping licenses, for which fees are charged, as shown by the enclosed copy of the Alaska Game Laws.

The restrictions in question, however, have never been made to apply to the so-called curio trade in Alaska, the shipment of articles including only small articles made from parts of game animals or birds which were not killed for the exclusive purpose of securing trophies, and the appearance of which has been considerably changed in manufacture. It would appear that all or nearly all of the trophies which you mention cannot be shipped by a non-resident, although I have no doubt that the object you have in view is a worthy one. The law, however, gives this office no discretion in the premises [illegible] impossibly prompt.

[illegible]

Secretary to the Governor

September 9, 1911.

Sir:

I write to acknowledge receipt of your letter of the 31st ultimo addressed to the Governor, requesting a permit for the shipment of a sheep head belonging to you and now at Seward, Alaska. Upon receipt of the legal fee of ten dollars, in the form of a postoffice money order made payable to the Governor of Alaska, a permit for the shipment of the head in question will be issued to you. In case you are prepared to make the necessary affidavit before the customs officer at the port of shipment. The affidavit in question, provided you are prepared to make it, may be forwarded, I think, by mail to the person in Seward whom you may designate to attend to the shipment for you. For the terms of the affidavit you are referred to the marked portion of the enclosed copy of the Alaska Game Law.

In your letter applying for the permit and enclosing the fee above mentioned, you should state the name of the consignee and the destination of the shipment, and the port in the States through which it will pass — whether Seattle, Portland or San Francisco.

Sir:

I write to acknowledge receipt of your letter of August 28th, which has just been received at this office. The Governor requests me to say that when it is necessary for you to take food for yourself and dogs with you on a trip, where roadhouses are not available, it will be required, in order to allow such items in your expense account, that you furnish duplicate receipted bills, itemized, to cover the amounts turned in on this account each month. These receipted bills should, you understand, be made out and signed by the merchant or merchants from whom you purchase the supplies.

I do not quite understand from your letter whether you returned to me both the personal service vouchers and the travel expense vouchers, but the latter should have been retained by you for use when making up your expense account at the end of each month, instructions for which were given you with the letter which carried the voucher blanks to you. In case they were returned to me, I will remail them to you as soon as I receive them.

You will not need to have any personal service vouchers on hand, as I will send one or two with each salary check I mail to you, so that you can sign them and return them to me; thus enabling me to always have a few signed ones on hand, to avoid delay in issuing your salary checks.

It was all right about your oath of office. We will use only one of them, of course, and will destroy the others.
