Sir:

I write to acknowledge receipt of your letter of the 2nd instant to Governor Clark, in respect to the application of Mr. James A. Hart, of Ketchikan, Alaska, for the position of game warden in the Ketchikan district. Your letter, with the one to you from Mr. Hart, which you forwarded, will be called to the attention of the Governor upon his return to Juneau.

I might add that I do not think it is the Governor's intention to make any additional appointments at the present time, nor are any changes in wardens contemplated.

Respectfully yours,

Secretary to the Governor.

Sir:

I have the honor to request that the following supplies be sent to the Governor's Office, Juneau, Alaska, the same to be charged to the appropriation "For Protection of Game in Alaska, 1912", the payment to be made by the usual method of transfer by check.

6 only "Fajkyma" Letter Copying Books, size 10½ x 14½, 500 pages, with "Extension" Index in back if to be had in that style.

The most satisfactory results have been obtained in this office by the use of the "Fajkyma" letter books; the only objectionable feature being that those thus far received have had the index in the front of the book, and not being of the extension style, it is not convenient for rapid indexing and reference. If this style of book is furnished with the extension index placed in the back of the book, it is respectfully requested that the above order be filled with books having the extension index. If some other letter book can be furnished, having the extension index, and the paper in the book is not inferior in copying results to that in the "Fajkyma", it will be satisfactory to have the order filled with such books.

Respectfully yours,

Mr. Clement A. Smyth,

Chief Clerk, Interior Department,

Your file:

Referring to your letter of the 3rd instant in regard to the application of E. A. Chamberlain as a registered guide, I note that his commission is dated August 9, 1910, and is for the term of two years. This agrees with the records of this office.

As to the payment of the guide fee of $25 for Mr. Chamberlain's license, or commission, I regret to say that I am unable to find that the fee has been received by this office. I have made a search of the correspondence files and find your letter forwarding the application of Chamberlain, but nothing is said in it about the fee. An examination of the record of guide licenses fails to show payment of the fee, and I have also looked over the Governor's quarterly accounts to the Auditor, which contain for each quarter an itemized statement of the moneys received from all sources under the guide law, and do not find any item covering the fee for Chamberlain's commission, although all the others are shown as paid. I think it may therefore be safely assumed that Mr. Chamberlain did not remit the fee for his commission, and it will be in order for him to do so now. Will you kindly take the matter up with him and arrange for the remittance of the $25 to cover his present commission.

Respectfully yours,

Alaska May 27th

Sirs

Your letter of the 20th inst. in regard to the hunting license. The letter which you say you wrote this receipt of letter from this office under date of January 28 & 24. I think was the only one you received this office.

In reply to your inquiry as to whether the license may be issued and sent to Alba to be delivered to you, I beg to advise that this would not be consistent with the rules of the office, which require payment of the fee at the time the license is issued. However if you will me such time to inquire carefully to Alba, however, and will have to stop over a day or so for the local train schedule here and Alba, you can no doubt arrange for the license at that time.

[illegible] Smith,

In accordance with our conversation of this afternoon, I enclose herewith two hunting licenses; one for a two dogs, the other for three dogs, both of which are prepared on blank form showing [illegible] one knight.

I have placed in each license an application form to be filled in and signed by the one to whom the license is issued. Upon these applications being properly filled out to include the information called for thereon and the payment to you of the sum of $10 by the two dogs out of the sum of $15 by the bearer and delivery of the application form to you you are authorized to deliver the license to [illegible] two dogs and bearer. The payment of the fees should be in cash or in express money orders payable [illegible] association system, or other acceptable form. I presume the gentleman will pay in each instance.

The difference in the fees is due to the fact that the legal is a citizen of the United States while the two dogs is a citizen of Germany.

I shall be greatly obliged to you for the courtesy shown in attending to this matter, and trust I may be able to reciprocate in the same way.

Sir:

The Governor requests me to acknowledge receipt of your letter of the 1st instant enclosing check for $40.00, to cover renewal of public licenses of Andrew Berg, 1st-class, $25.00, Indemnity Champey, 2nd-class, $7.50, and Pihm Benoff, 2nd-class, $7.50, and to say that the commission of Mr. Berg will be forwarded in a few days. It appears from the records of this office that the commissions referred to expired as follows:

Andrew Berg, July 6, 1918.

Indemnity Champey, October 7, 1918.

Pihm Benoff, October 7, 1918.

As it will be some months before the two 2nd-class commissions will expire, the Governor directs me to return to you the fees which were remitted for them, and I enclose herewith a check for $15.00 in your favor therefor, with request that you will return the commissions with instructions to renew their applications about the first of September next.

I have the honor to refer to your letter of March 5, 1913, advising the forwarding to this office of 100 copies of Governor Clark's Annual Report on the Alaska Game Law, 1913, and to ask if it is possible for this office to obtain a further supply of copies of this Report. A great many inquiries are received in this office for copies of the Alaska Game Law and Regulations, and the Reports of the Governor thereon, and the 100 copies above mentioned have nearly all been called in response to such inquiries. If a further supply can be furnished it will materially assist in responding to inquiries received by this office.

Sir,

Your letter of April 6th, receipt of which was acknowledged by Lieutenant in my absence from the Territory, has been brought to my attention. The fact that the white man in question killed the native himself is not material, due to any or all plea such as of course is illegal, and subjects a violator of the law in this respect to the penalties of the law quite as strictly as if he killed the outside himself.

This office construes the term "resident of Alaska" not necessarily as one who has resided in the Territory long enough to be qualified to vote if an election, but who has lived in Alaska long enough to make it apparent that he is not a transitory visitor.

I have read with interest your letter and report, dated March 24, 1918, which reached this office on March 28, during my absence from the Territory on official business. Your view in regard to the sale of gum which out of season is approved, and it is expected that you will continue to enforce the game law in that respect to the best of your ability. Also the fact that you consider it possible to comply as much literature as possible among miners and prospectors who ask in particular about the special exceptions under which [redacted] game law is construed as being in accordance with the instructions and policy of this office.

Sir:

Your letter of March 25, in respect to the shipment of moose and caribou horns, receipt of which was acknowledged during my absence from the Territory, has been brought to my attention. In reply you are advised that the law relating to the shipment of game trophies confers upon the administrative officer no power to waive the shipping license provisions; and that you are, in the opinion of this office, under a misapprehension in believing that the spirit of the statute differs materially from the letter thereof in the particular which you mention.

Sir:

I enclose herewith check of this date, No. 150, in favor of the Postal Telegraph-Cable Co., to cover voucher signed by you in connection with your bill of March, 1914, account No. 5729, amount $5 covering the voucher and bill in question were recently forwarded to this office from the Interior Department for settlement.

I also enclose a voucher covering telegram sent by me on the 20th of march last to the Secretary of the Interior, the charges being $1.12 between Seattle and Washington. This is sent you for the reason that a copy of the message in question was received at this office with the voucher and bill covering your account No. 5729, above referred to, and it is assumed that payment of the charges was not made by the Interior Department, but is to be made through this office. I am not certain whether your office or the Seattle office is carrying this small charge, but send it to you and request that you sign it if your office carries the charge in question, or if not, that you kindly forward it to the Seattle office for signature, and to my knowledge [illegible] to this office in the [illegible] otherwise which are responsible for

In cases where licenses are telegraphed for the party usually desires to know that and to whom his freight will be shipped. In case the reply comes from this office or a telegraphic authority for shipment of the freight and an evidence of the issuance of the license, and the license is either held here to be delivered to him upon arrival of the shipment at Juneau, or may be sent to the Collector of Customs at Ketchikan, to be held until arrival of the shipment there. This whole arrangement, however, is one made by this office purely for the convenience of hunters, and is not specified in the law. It is done to save hunters from having to obtain a special permit shipping license before they obtain the animal, and to save them the expense of the license in case no moose is obtained.

The Governor directs us to reply to your letter of the 3rd inst. making inquiry in regard to the game laws [illegible] ohio

I enclose herewith a copy of the Alaska game law and regulations also copy of the Governor's annual report for the year 1909. These will give you the desired information I think. Your particular attention is directed to section 5 of the game law which relates to the matter of issuing fish shipping licenses. This will note that persons of Alaska are required to obtain hunting licenses, except that they do not pay the fee for the license being $10 if issued to a citizen of the United States, and $100 if issued to one who is not a citizen of the United States. Such hunting license to accompany the shipping coupon covering the shipment of the animal upon outside of package which the law permits to be taken under the license. The special game shipping license referred to in section five and the rules [illegible] of section 10 explains. If you should obtain any game specimens north of 65 you would not require a special shipping license of course. Most of the game you take in the Mount Jubilee [illegible] which is north of the 65 in all such cases the special game shipping license are required as you may take two of them being in addition to any one person in one night as you will note in the section referred to. You can arrange for your licenses to be mailed to you at Seattle or other point in the States, or to some point in the

(Mr. R. A. Norton, p. 2)

[illegible] you have been delivered to the owner of one of the three vessel Company's steamers at Juneau or to the owner of any other steamer heading at Juneau. In obtaining any [illegible] however, your application must be made in writing to this office, accompanied by the required fee for the hunting license. You should state in your application your name, residence and advise whether the trophies you obtain will pass through the ports of Seattle, Portland (Oregon), or San Francisco and to whom they will be consigned and the ultimate point of destination in the States. Practically all [illegible] obtained along the coast of Alaska, however, pass through Seattle, since that is the southern terminus of the steamship lines plying along the Alaska coasts. No doubt yours would pass through Seattle. Your license for should be received in the form of a post office money order payable to the "Governor of Alaska". The Governor's name might not appear on the order. Should special ocean shipping licenses be desired by any of your party, they must not be obtained in advance of the arriving of the vessels but may then be arranged for through the deputy [illegible] at Juneau, Alaska, with whom the authority has may be deposited and the license or licenses arranged for by telegraph, at the expense of the hunter. This is an administrative arrangement authorized by the Governor purely for the accommodation of hunters and to avoid the necessity of their paying for special ocean shipping licenses before they get the vessel on, in which event the money could not be refunded, since it goes to the credit of the Game Fund in the States.

Should you desire information as to game in particular

I trust that you have not suffered seriously by reason of the recent volcanic disturbance near Katmai. Complete information is still lacking here, but enough is known to make it certain that some of the settlements opposite Kodiak Island, and possibly Afognak and other places near Kodiak, on the islands, have suffered greatly. By the time you receive this Kodiak conditions will probably have assumed a more normal state, but I fear that the damage will prove about as not quite inestimable.

I beg to acknowledge the receipt of your telegram dated the 10th instant, which reads as follows:

"Referring your telegram June second Lieutenant Colonel of Captain Dalton sixteenth Infantry relative two sheep hands. Customs officials Seattle refuse release sheep hands until license procured. Request license be issued and mailed and date telegraphed this office. Captain Dalton has deposited twenty dollars payment license which will be forwarded upon receipt your reply."

I find that the telegram which you refer to was sent in 1911, as a special favor to Captain Dalton, although we are usually constrained to insist on transacting these matters by mail. No communication of any kind has ever been received from Captain Dalton except his telegram dated June 1, 1911, which asked for free shipment of two sheep hands.

The information possessed by this office in reference to the case involved in question is so meagre, and the whole transaction has been so irregular from an official standpoint, that I have not been able to supply with your telegraphic request that a shipping license be issued and advise be sent by telegraph. Dear Sir:

The Governor directs me to reply to your letter of the 3rd inst.

[illegible] inquiry in regard to the game laws, licenses, etc.

I enclose herewith a copy of the Alaska Game Regulations, also copy of the Governor's annual report for the year 1911. There [illegible] give you [illegible] information [illegible] your particular ob-
[illegible] section is found on page 5 of the game laws, which relates to the matter of hunting and shipping licenses, etc. You will note that non-[illegible] are required to obtain hunting licenses, except for [illegible] deer and goats; the fees for the license being, $10 if issued to a [illegible] of the United States, and $100 if issued to one who is not a citizen of the United States. Each hunting license is accompanied by shipping coupons covering the shipment of the several game animals or [illegible] which the law permits to be taken under the license. Those special coupons entitle licensee referred to in [illegible] moose killed south of latitude 62 degrees. If you should obtain a license to kill moose specimens north of 62 you would not require a special shipping licenses, of course, [illegible] most of the moose are taken in the Kenai [illegible] sula, which is south of 62, and in all such cases the special moose shipping licenses are required [illegible] two of them being issued to any one person in one year. [illegible] referred to. You can arrange for your licenses to be mailed to you at Seattle or other point in the States, or to some point in the

-2-

Cook's Inlet country; orders can have them delivered to the purser of one of the Alaska Coast Company's steamers on arrival at Juneau, or to the purser of any other steamer touching at Juneau. In whatever way you arrange, however, your application must be made in writing to this office, accompanied by the required hunting license.

You should state in your application your name, residence, whether the trophies obtained will pass through Seattle, Portland (Oregon), or San Francisco, and to what definite point of destination in the United States they are to be shipped.

Seattle, since it is the gateway for most of the steamers plying along the coast of Alaska, would be the preferable point to have your trophies pass through. Your license would be granted in the form of an order addressed to the Collector of Customs at Seattle, directing him to issue a shipping license to you for the moose. No doubt you would prefer to have the license mentioned in your report delivered to you personally at Juneau, but this could not be done unless you desired to pay the expressage, which would not be advisable in view of the fact that the moose, if killed, would probably be shipped to you through the agency of the Alaska Game Warden at Seward, Alaska, with whom the necessary fee might be deposited and the license or licenses arranged for by telegraph, at the expense of the hunter. This is an extra-official arrangement authorized by the Governor purely for the accommodation of hunters and to avoid the necessity of their paying for special moose shipping licenses before they got the moose -- in which event the money could not be refunded, since it goes to the credit of the United States Treasury.

Should you desire information as to game in particular

250

250

June 15, 1912.

My dear Mr. Hinz:

Referring to your letter of December 1, 1911, coming with which a list of resident and non-resident hunters in Kenai Peninsula during the years 1909 and 1910, and in which you stated that the list for 1911 would be sent "at the end of the season". I beg to advise that the 1911 list has not yet come to hand. It will be appreciated if you will send it in as soon as convenient. This list, as you will recall, was for the particular purpose of showing who employed the various guides on the Kenai Peninsula, and showed the names of the hunters, their residence, the name of the guides and their residence.

In this connection you may be interested in knowing that as a result of inquiries made by this office, and replied to by 19 out of 24 persons addressed, 14 expressed themselves as satisfied with their guides, one did not hunt in the Kenai Peninsula and hence did not have a license guide. A letter to say whether their guides were satisfactory or not, in their letters, but had previously told us personally that they were very unsatisfactory, and two were dissatisfied with their guides. The latter two Mr. Brown told us, while in Juneau on their way south last fall, that their guide did not know his business and would neither by a package of how to hunt game but they

[illegible], I would suggest that you accumulate with the above information a short history as to their guides, names, why and his friend

any [illegible] that their guide was unfamiliar with his district

(Shea, Game Warden, p. 2)

and that they finally had to employ a man who was not a licensed guide but who did know the district, to "guide the guides". All in all, however, the investigation has resulted far more flatteringly than he even hoped it would. I believe the only man who was not commissioned with was Mrs Lathrop. At the time the inquiries were sent out I was not certain where he had headed.

I think it would be well in future if you would try to obtain from the various hunters (especially non-residents) a statement, verbal of course, of their experiences with the guides employed by them, and that you make a note of them in their essential features, and report them to this office as a part of your annual report or list of hunters in Kenai Peninsula and the guides employed by them -- in the form as made by you for 1909 and 1910, above referred to -- simply adding to the form another column headed, for instance, "Satisfied with Guide", and under that, opposite the record of each hunter, enter the word "yes" or "no", as the case may be. In case a particular complaint be lodged against a guide, it would be well to make special mention of that in a footnote to the reports. The object of all this is, as you will readily see, to place this office in possession of sufficient information relative to the various guides, so that if complaints reach the office we may have something upon which to base a reply and make an investigation if it should seem necessary. No doubt you can generally get this information first hand in a casual way in your conversation with them upon their return. If applicable are made, the hunter should then be asked to give such facts as will tend to establish the truth of the charges. A mere general complaint is not

(Chem. Game Warden, p. 3)

of value unless it refers to specific circumstances and acts which test
to show unsatisfactory service of a guide.

It will be appreciated, also, if you will continue to keep a
list of trophies obtained by hunters, both resident and non-resident,

the calendar year.

TERRITORY OF ALASKA

RICHARD B. ROBERTS

JUNEAU

June 26, 1972.

Sir,

June 6, 1972.

June 26, 1916.

Sir:

I wish to acknowledge receipt of your letter of the 22nd instant addressed to the Governor, requesting the issuance of a shipping license for one brown bear skin which you wish to take with you from Alaska to the States. I enclose herewith license No. 21 of this date. While your letter does not give the specific information, I am assuming that the skin will be consigned to yourself at Seattle, Wash., passing through Seattle, but will go entirely the Customs officer at Seattle. If this is not correct, please advise.

A carbon copy of the Alaska game law is enclosed, the marked portion referring to the affidavit which is required in connection with the shipments. I presume you will file the affidavit and obtain the customs manifest in the Customs office at Ketchikan, unless there is an officer of the Customs at Valdez.

Governor Clark is absent from Juneau for a few days, hence I am replying to your letter.

Respectfully yours,

Secretary to the Governor.

Mrs. H. E. Crabtree,
Valdez, Alaska.

Sir:

I regret that owing to the necessity of extending the agencies for the protection of game in Alaska during the current fiscal year it will be impossible to allow more than $900 for the services of a game warden at Kenai. In fixing the salary at this figure, due consideration is given to the fact that the game warden is not required to perform any official travels and that his activities heretofore have been confined largely to the hunting season.

I hope that you will be willing to serve as Game Warden at the reduced salary, with the assurance that this reduction forms no criticism of the efficient service which you have rendered under the game protection act.

This adjustment of salary is conditioned upon the early passage of the appropriation bill which carries the appropriation for the protection of game in Alaska during the fiscal year 1913, but there is believed to be little doubt that the bill will become a law at an early date.

Please inform us promptly whether you will prefer to perform the duties of game warden during the whole twelve months of the year at a salary of $90 per month, devoting a fair proportion of the whole time to official duties, or during the first two quarters of the fiscal year at $100 per month -- the latter having been the period of your service

Sir:

The Interior Office is to inform you that under the proposed distribution of expenditures of the appropriation for the protection of game in Alaska for the fiscal year 1919, it will be advisable to reduce your monthly expense-allowance to $60.

Compliance upon the passage of the bill which carries the appropriation in question, your salary at Nome Station will be reduced at that rate. It is expected that the bill referred to will become a law at an early date.

Respectfully yours,

Secretary to the Governor.

Game Warden,

Sir:

Subject to the renewal of the appropriation for the protection of game in Alaska for the fiscal year 1919, your compensation as Game Warden is increased to sixteen hundred dollars ($1,600.00) per annum. It is presumed that the appropriation of $25,000 for the fiscal year 1918 will be renewed for the current year, and upon that basis it will be necessary for all game wardens to place a strict limit upon their expenditures for transportation and subsistence while engaged on official duty. You are expected to exercise due vigilance to keep your official expenses at $170.00 or less for each fiscal quarter, which is an average of $57.00 per month; but expenditures for any one month are authorized to the amount of not more than $70, provided the quarterly average as stated herein is not exceeded. Please give the strictest attention to this limitation.

Respectfully yours,

Secretary.

Game Warden,

Sir:

Your temporary appointment as Game Warden, which was made effective September 1, 1913, at a salary of $100 per month, is hereby made permanent at a salary of $900 per annum, or at the rate of $75 per month, entitlement upon the renewal of the appropriation for the protection of game in Alaska for the fiscal year 1919. There is a strong presumption that the appropriation will be renewed at an early date.

This office regrets that by reason of the vast extent of territory in which it is necessary to provide proper agencies for the protection of game animals and birds, it is impossible to appoint you permanently at a salary of $100 per month, as was paid to you as a temporary game warden. At the time your temporary appointment was made, however, it was entirely beyond the expectation of this office that it would continue throughout the fiscal year and it will certainly be impossible under the new appropriation, with the increased needs of the service, to pay you $100 per month for the whole fiscal year. It is much preferred to have your services during the whole day at $75 per month than to have you not for only six or nine months at a higher salary. I hope that this adjustment of salary will be acceptable to you and that you will notify this office of your acceptance of a permanent appointment and this readjustment of salary thereafter. A new oath of office will not be required.

Please keep your expenditures for travel and subsistence while

Governor.

My dear Miss

I am in receipt of Mrs. Smith's letter of the 26th
ultimo, relative to the shipment of a brown bear skin, reply to
which the writer requested be addressed to you. There is no
provision in the game law whereby Great Shipping Lines may be
granted the game trophies intended to be returned to the North-
land. The skin, as mentioned in the box in the grounds
near the person of the object is to have the trophy dressed
or mounted by a taxidermist. I was obliged even then not to
pay quite as much as others who patronize

So doubt you can generally get this information from hunters in a casual way in your conversation with them upon their return. If complaints are made, the hunter should then be asked to give such facts as will tend to establish the truth of the charge; a mere general complaint is not
