DEPARTMENT OF
SUPERINTENDENT
OF BUILDINGS
OFFICE BUILDING

Collier:-

Was surprised to get your note of the 17th instant, dated Alaska. I suppose, however, you will enjoy the change. A single fellow, I don't know but that I would like it my-

Below you will find the names and addresses of two mills making redwood finishing lumber.

Pacific Manufacturing Co.,
177 Stevenson St.,
San Francisco, Cal.

G. A. Buell Co.,
730 Hooper St.,
San Francisco, Cal.

These are the two best mill firms in the city.

I am also sending you the addresses of two redwood lumber as follows:-

Wilson Bros. & Co.,
324 Berry St.,
San Francisco, Cal.

Hooper Lumber Co.,
Mariposa and Illinois Sts.,
San Francisco, Cal.

If there is anything further I can do for you in connection with your assignment at Juneau, just drop me a note anytime like it.

Yours, etc.,

Supv'g. Superintendent.

Dear Sir:

The Members of the American Society of Civil Engineers,
resident in the State of Washington, are being called upon to
finance the Convention to be held here in Seattle the last
week in June.

The Members already approached have nearly all given
from \$25.00 to \$50.00 each, and it would, therefore, seem
appropriate for you to subscribe \$10.00 and send a check
made out payable to American Society Convention Executive
Committee, so that we can tender the Members a royal reception.

We already have three or four free excursions donated
by various persons and Societies and we can assure you that the
money will be carefully spent, so as to redound to the credit
of the Northwest Members.

Very respectfully yours,

M. Am. Soc. C. E. and
Chairman, Finance Committee.

TREASURY DEPARTMENT

WASHINGTON, May 31, 1912.

Mr. William N. Collier,
Superintendent of Construction,
Executive Mansion,
Juneau, Alaska.

Sir:

Replying to your letter dated May 18, 1912, in which you estimate a payment during the month of June of approximately \$6,000, on account of work to be performed at the building in your charge, you are advised that the sum of \$5,000, has already been placed to the credit of the Collector of Customs to enable payments to be made on account of vouchers certified by you, and another requisition has this day been prepared for a further advance to his credit in the sum of \$5,000, in order that he may have sufficient funds to make prompt payment of vouchers as they are presented.

Respectfully,

Acting Executive Officer.

Dear Sir:-

In pursuance of our conversation we wish to make you the following prices on the seven mantels for the Governor's Mansion at Juneau, Alaska:-

We will furnish pressed brick, fire brick, dampers, ash dumps and ash pit clean out doors, and necessary labor to install same in first class workmanlike manner for the sum of Five hundred Eighty-eight and 50/100 dollars (\$588.50).

Should you decide to use Moravian and Unglazed tile in place of brick, using Moravian in Hall, Dining room and Library, and Unglazed in the four other rooms the price would be Six hundred and no/100 dollars (\$600.00)..

We will furnish tile and labor to install 1" hex tile floor and 6" sanitary base in three baths and toilets for the sum of Three hundred Thirty-four and 50/100 dollars (\$334.50); Vestibule tile as specified for Thirty-two and 50/100 dollars (\$32.50).

Trusting to receive your order for at least a part of this, we are,

FOR MATERIAL

SEATTLE, WASH., 1912
L. O. R. 100-100
ST. PAUL, MINN. 100-100
PORTLAND, ORE. 100-100

Seattle, Washington,

June 10, 1912.

I herewith propose to furnish the tools and labor necessary for the construction, except foundation and mechanical equipment, of the Executive Mansion at Juneau, Alaska, in accordance with the plans and specifications and the instructions of the Superintendent for a sum equal to the cost of said labor and the supervision thereof, as shown by the original payrolls and affidavit attached thereto together with seven and one half per cent of such sum in addition thereto.

The traveling expenses from Seattle, Wash., to Juneau, Alaska, and return, not to exceed fifty dollars per man, of skilled mechanics, when same are not available locally, and upon the written consent of the Superintendent for such expenditure, to be included in the said cost of labor.

The number of workmen to be employed, their rate of pay and the manner of keeping the time books, pay rolls and cost records to be under the supervision of the Superintendent.

This proposal contemplates the completion of the work prior to December 1, 1912 at a cost for labor as shown not to exceed Eight Thousand Five Hundred (\$8500.00) dollars, or, if the work on the mechanical equipment is included, not to exceed Ten Thousand (\$10000.00) dollars.

Continuation

1. Prepayment of freight charges will in no case be demanded by carriers. Upon surrender of this bill of lading duly accomplished payment will be made to the last carrier, except where otherwise specifically stipulated.

2. For railway transportation this bill of lading is subject to all the conditions of the uniform or standard bills of lading, and for express shipments to all the conditions contained in the standard form of receipt issued by express companies, except as otherwise specifically provided hereon.

3. Shipments made upon this bill of lading shall take the rates provided for shipments made upon the uniform or standard bills of lading or standard receipts.

4. No charge shall be made by any carrier for the execution and presentation of bills of lading in manner and form as provided by the instructions hereon.

5. The shipment is at "owner's risk," or released rates when the tariff provides lower rates on that

upon receipt of the shipment, accompanied and with the bill to the last carrier. This bill then becomes the evidence upon which settlement for the service will be made. Memorandum copies may be used at the discretion of administrative officers. Shipping orders shall be invariably furnished the initial carrier.

9. In no case will a second bill of lading be issued for any shipment, nor will a bill of lading be issued after the transportation has been performed.

10. In the absence of the consignee, or on his failure to receipt, the person receipting will certify that he is duly authorized to do so, reciting such authority.

11. In case the bill of lading has been lost or destroyed, the shipping officer will issue a certificate upon the application of either the carrier, the consignee, or the proper officer of the Department, bureau, or office making the shipment. This certificate will be forwarded to the consignee, who will endorse thereon his certificate as to the receipt of the property and its condition. This certificate shall then become the substitute for the bill of lading, and payment may be made

According to your telegram of yesterday and my reply thereto
that the barge Washington is leaving Seattle today calling
to complete her cargo, and it is estimated by the Northland
that she should reach Juneau about July first.
Very much the delay to this cargo but assure you that
we made to get the same to you promptly; and had not
been seized by the government to aid the relief
people at Kodiak the shipment would have reached by now.
It is absolutely impossible to secure another tug consequently
going forward in tow of the Steamship Northland.
We have to get your lumber away on both the Meteor and Alki
vessels carrying cargoes north and even offered a
plan to get this lumber to you promptly but space could

Very respectfully.

WASHINGTON June 27, 1912.

W. N. Collier,
Collector of Customs,
Juneau, Alaska.

Enclosed a copy of Department letter of June
regarding the proposal of Mr. Christ Kuppler to con-
structive Mansion at Juneau, Alaska, including the
equipment, but not including the foundations, at
the labor (the Government to furnish the mater-
ials), at a total cost of not to exceed \$10,000.00,
plus the actual traveling expenses (not to exceed
the cost of a round trip from Seattle, Washington, to Juneau, Alaska, and return
for such skilled mechanics as cannot be engaged
in accordance with the terms of the acceptance.

The formal contract, with bond, will be furnished
to you, and you are directed to certify and issue
promptly, payment of which the Collector of Customs
has been authorized to make from the appropriation
for "Mansion, Juneau, Alaska".

Respectfully,

J. A. Tolson
Acting Supervising Architect.

TREASURY DEPARTMENT SA-TC.

TRACT.

WASHINGTON June 21, 1912.

ist Dappler,
309 7th Avenue, North,
Seattle, Wash.

(Copies of said drawings, etc., have also been forwarded
to the contractor for the work (or other addressee
below):

In accordance with Department approval of even date,
proposal of June 10, 1912, the only one received under
consideration, is accepted to construct the Executive Man-
sion at Juneau, Alaska, including the mechanical equipment
(but not including foundations), in accordance with
specification and drawings, etc., and to the satisfaction
of the Superintendent, and the Supervising Architect, the
work to be completed by Dec. 1, 1912. Under this acceptance
you are to furnish all necessary tools, labor and supervision,
and the Government to furnish all materials at actual cost to
you, plus 7-1/2%, the total cost of such labor and
supervision, including the 7-1/2%, being guaranteed by
you not to exceed \$10,000.00. It is understood that included
in such cost are to be the actual traveling expenses (not to
exceed \$50.00 each) from Seattle, Washington, to Juneau,
Alaska, and return to Seattle, of such skilled mechanics
as cannot be engaged at Juneau, the necessity for
such employment to be certified to in writing by the super-
intendent, it being an express condition, however, that you
are to be entitled to include a charge for traveling expenses
of such employees only as remain in Juneau until, in the
opinion of the superintendent, their services are no longer
needed. All labor at the building is to be promptly paid
by you, and, upon presentation of the payrolls, duly re-
viewed, with your sworn statement, and the certificate of the
superintendent, that they show the accurate and actual amounts
used by you, such amounts will be paid by the Government.
It is understood and agreed that you will execute promptly
a cash bond in the sum of \$5,000, for the faithful fulfill-
ment of your contract obligations, a form for which will be
furnished you, and that the liquidated damages are to be \$5.00
for each and every day's delay after the expiration of the
contract time. It is understood and agreed that the number
of men employed, their rate of pay, and the manner of
keeping the time books, payrolls and cost records are to be
under the supervision of the superintendent. Payments will
be made, as required hereby, every week, from the appropriation
for the Executive Mansion, Juneau, Alaska.

Respectfully,

105
Assistant Secretary.

(47)

July 22-1912.

J. Collier, Superintendent,
Construction, U. S. Public Buildings,
Rainier Grand Hotel, Seattle.

I have wired James A. Wetmore, Executive Officer, today, as
attached copy. The Bonding Companies at Seattle refuse to
do, in Alaska, and as nothing was said regarding bonds
of June 10th we did not think it would be necessary to
bonds. Further, the contract sent us from Washington,
in accordance with our understanding or proposal of June
inasmuch as it states that the actual cost of labor plus $7\frac{1}{2}\%$
guaranteed by me not to exceed \$10,000. It was my under-
standing that the $7\frac{1}{2}\%$ is in addition to the limit of \$10,000.
The contract should be corrected accordingly. I desire to
draw your attention to the third page of contract, lines 23, 24
These lines should be ruled out as same are not in
accordance with my proposal of June 10th-1912.

As everything is running smoothly at Juneau and good progress
has been made, I would suggest that in lieu of a bond for \$5,000,
if a certified check be issued in favor of the Govern-
ment for an amount not to exceed \$1,000, as a guarantee for the
fulfillment of my contract.

I am, Sir, your obedient servant and assuring you of my hearty

Dear Sir:

The #1500 Ideal Cylindrical Boiler
ordered in your telegram of July 3d, will
leave Titusville, Pa. about August 1st. We
give this advice by wire this morning.

It will be shipped to our Bond Plant at
Buffalo, and combined there with a car of Cast
Iron Boilers.

Unless something unforeseen occurs, it
could arrive in Seattle about Sept. 1st.

Yours very truly,

WASHINGTON July 17, 1912.

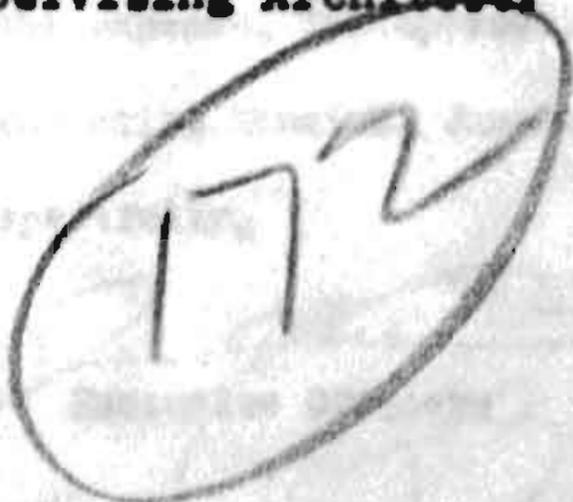

Chief,
Department of Construction,
Executive Mansion,
Juneau, Alaska.

Requested to have photographs taken of the building under
the first of each month, and you are requested to
forward to this office, with your recommendation, propos-
ing the desired views.

Photographs are to be furnished, taken from well selected points
progress of the work; they are to be 6-1/2 X 8-1/2 in size and
4 in.

When your reply, with the proposals, is received, an accept-
ance, if deemed to the advantage of the Government,
can be made, however, and in order that the existing condi-
tions known at this office, you will have two views taken as
soon as possible, and forward them to this office, mailed flat and pre-
paid by a voucher for the expense, for approval and pay-
ment by appropriation for the "Executive Mansion, Juneau, Alaska."

Respectfully,

SEATTLE

Aug. 5, 1912.

Collier, Supt.
An, Alaska.

Sir: We wired you under date of August 3rd as confirmation of telegram attached.

Regarding the delay in shipment of your order, wish to advise that the writer went through the house with you personally on the 23rd of July to ascertain what shortages there would be. On the 5th Extra Heavy Soil we explained there would be considerable shortage if you were to see the writer the following day at 10 o'clock in regard to this shortage. At 5.30 P.M. we called and changed the order from 5" to 4" Soil and Fittings. At this hour we got the order together and rushed same to the dock but it arrived late for the boat to load the entire order, hence delay. The balance of the order went forward on the S.S. "Meteor", four days later.

We are sorry that this delay occurred but under the circumstances we feel that we did the best we possibly could do in making a prompt shipment.

We will forward everything that we can pick up immediately on back-order with the exception of the quantities which will be subject to your further notification.

Any shortage there may be in the pipe and fittings we will forward as soon as possible.

Trusting this will meet with your approval, we are

Yours truly,

CRANE CO.

SEATTLE, WASH., Aug. 5-1912.191

W. N. Collier, Supt. Construction,
Juneau Executive Mansion,
Juneau, Alaska.

Sir:-

Kindly advise the writer how soon it will be necessary
to have a man at Juneau to do the shingling and lathing.
I have a man at Victoria, B. C., who is an A-1 man in
the line, and has been in Southeastern Alaska, but who wants
a day from the time he leaves Seattle until he returns.
If you have a man or men at Juneau who can do this work.
I would be glad to hear from you on this matter.
I would also like to know if the plumbing material reached
Juneau and if the gentleman Mr. Harman has there is capable
of doing the plumbing and steam fitting.

Thanking you for your reply, I remain

Yours very truly,

Christ Kuppler

GOVERNMENT B/L

Sir:- Re your telegram of August 2nd, we are forwarding by
Seattle tonight the heating material that we have on order
you with the exception of the radiation.

You made no provision for us to obtain a Government Bill of
Lading, we are obliged to use our own. We have taken this up
with the Pacific Coast Steamship Co. and they say they will
accept your Bills of Lading later on providing you will make
them out exactly as ours are made and sign them, forwarding the
Bills to us at Seattle. We will then turn them over to the
Steamship Company.

However, it is satisfactory to ship them on our bills, of course
it will not be necessary to do this.

Waiting your advice, we are

I. Collier, Supt Constr.
Treas. Department U.S. Government,
Juneau, Alaska.

Dear Sir:-

Your favor of August 5th, has my attention.

Your proposal calls for Corner Bead 12 feet long. We are unable to supply any corner bead longer than ten feet and we have filled in your proposal accordingly. The Lath I am figuring on is both painted and Galvanized, the factory recommend the use of painted lath as being cheaper and in some instances more satisfactory than galvanized.

Awaiting the favor of your reply, I am,

Yours very truly,

proposal for furnishing
corner beads and metal lath.

Seattle, Washington. August 13 1912

The Supervising Architect,
Treasury Department,
Washington.

Sir:-

We herewith propose to furnish F.O.B. Seattle wharf the following materials for use in the construction of the Executive Mansion at Juneau, Alaska.

24 pieces of galvanized metal corner beads each piece 12 feet long. To be straight, stiff, easily applied and without clips or separate parts, for the sum of Twelve (\$12.00) Dollars about 288 feet in 10 foot lengths.

100 sq. yards of metal lath either galvanized, cherradized or coated to prevent rust and without stiffening ribs, for the sum of Fifteen (\$15.00) Dollars, if painted, Twentytwo (\$22.00) Dollars if galvanized, before expansion, all #17 gauge, Diamond mesh.

Respectfully,

M. Collier,
of Construction
Gov't. Buildings,
Alaska.

Dear Sir:

We wrote you on Aug. 3rd asking you to please advise us as to the finish on the annunciators, etc. I over-looked at that time as to the finish on the wooden trimmings on the panel boards.

Now we expect to be able to make shipment on this board about Aug. 16th or 17th and if it would be possible to know what the finish is by that time, we could have same finished. I was thinking, owing to the fact that you have not specified the finish that you want, we would send the trimmings unfinished and the painters could finish the same to match the other trimmings when it is installed.

Now then, if I do not hear from you to the contrary, I will ship the panel boards without the trimmings.

Trusting that we may hear from you at once on this

SHIPMENT OF MATERIAL

Dear sir: We wired you yesterday, advising that your telegraphic order of the 16th would go forward on Str. "City of Seattle", sailing on the 19th. The Steamship Company accepted the material in question, but called us up by 'phone this morning, after the boat had left, stating that she had more freight than she could take care of, and it was impossible to get your material off.

This being the case we have transferred your material to the Steamer "Humboldt", which is expected to sail from Seattle tonight.

We attach new bill of lading, also copy of telegram sent you today.

Yours truly,

C R A N E C O.

paid mt

Seattle, Washg 10, 1912

Collier,
Const'n, U.S. Public Buildings,
Mansion,
Alaska,

We are pleased to acknowledge receipt of your
Aug 5th advising that there will be about 3300 yds
ring in the new Executive Mansion now under construc-
meau, Alaska, and requesting that we submit prices
fibre plaster ; also on sand float finish. This we
with pleasure, and herewith quote Peerless Wood Fibre
at \$12.00 per ton and Sand Float finish at \$11.00
/o/b/ Wharf, Seattle.

Peerless Wood Fibre Plaster should be mixed in
portion of one ton of plaster to one ton of sand.
d in this proportion, one ton of Peerless Wood Fibre
with the sand added will cover 240 sq yds to the ton
grounds on wood lath. We therefore suggest that you
1/2 tons instead of 13 tons. Sand float finish is
ready for use. We estimate that 3 tons will cover
ds and that this job, on this basis, will require
tons. It should be mixed as received. Nothing is to
but water to mix it to the proper consistency and
to a true and even surface without the use of water.
be brushed off with a damp brush in order to secure
uniform surface. When water is used in brushing it
plaster is washed out leaving a rough and uneven
showing brush marks which is very objectionable.

We trust that the prices quoted are satisfactory
we will be favored with this order which will be
prompt attention.

Yours very truly,
PIONEER PLASTER CO.
